ALIEN ATTACK!

Once upon a time, Jay and Kai were in their science lab. They were lab partners. They were trying the time machine but they thought that the time machine did not work. Then, they went back home. But, then the time machine opened by itself and aliens came out of the time machine!

Then, they woke up and see that alien is attacking the world. Jay and Kai went to the lab and grab armor and laser katana. They rush to the city to attack the alien. But, the laser katana did not work, and they failed.

ALIEN ATTACK!

Jay and Kai said to one another, "What should we do?!". Kai had an idea. He found laser cannon and a jet, so they attached the laser cannon on top of the jet. Kai used the laser cannon to shoot and Jay is going to fly the jet. They attack the alien. Then they destroy the UFO, aliens, weapons, and giant monster.

Then, Kai said, "Fix the time machine!". The time machine actually worked then they went back to the past and grab a net to capture the alien.

When they capture the aliens, they make a bigger time machine so the jet fit. They went back to the their world.
