

Le Tangram

Le but du jeu de Tangram est de reproduire des dessins avec les 7 pièces contenues dans un carré.

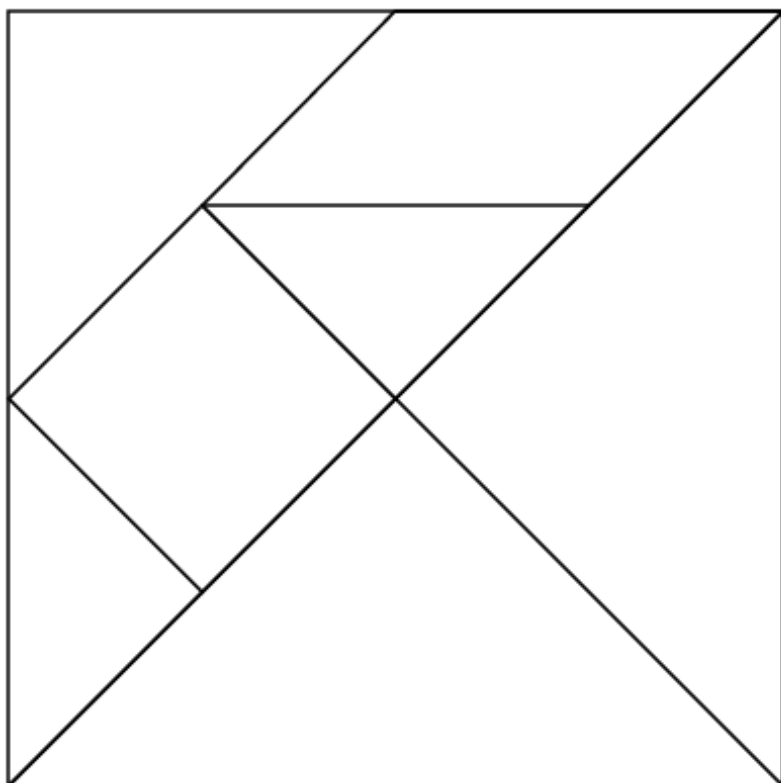

Les règles sont simples : toutes les pièces de tangram que vous découperez doivent être utilisées et posées à plat ; elles doivent se toucher mais ne peuvent pas se chevaucher. Elles doivent être réorganisées pour former une image complète respectant le modèle.

Les versions couleurs sont les plus simples à reproduire alors que les versions blanches ou noires sans reconnaissance des formes sont les plus complexes. (Donner la version couleur ou blanche pour la vérification en arbitrage).

Tangrams à imprimer sur papier cartonné
160 g.

Vous pourrez plastifier la feuille avant de
découper les 7 morceaux du carré.
