INTERNATIONAL CONFERENCE

Distance Learning during the lockdown

The Speaker: Dr Omar Hammad
Teacher of English
Asrar Qabandi School
Ministry of Education-Palestine

INTRODUCTION

It is really my honor sharing you the most important ways Ministry of Education in Palestine established for Distance Learning during corona virus.

About me:

I am Omar Hammad , Teacher of English from Palestine-Palestine is a small country in Asia- the Middle East linking with Egypt, Jordan, Lebanon, and Syria.

I teach English Language – secondary school students.
At Asrar Qabandi School.

QUARANTINE IN PALESTINE

By the announcement from the prime minister about the emergency statutes...

Governorates started caring of safety and health criteria for all people there by the closure of all life aspects including Schools from 8/March/2020 till now.

According to this issues Ministry of education established many ways for making connection with students.

MY SCHOOL

- As all my School “Asrar Qabandi Secondary School” started connecting with teachers and students by the following ways.

WAYS PALESTINE ESTABLISHED FOR DISTANCE LEARNING

1-RAWAFED SITE

The first source of Distance Learning for our students in Palestine is Rawafed E-Learning Site: All the following statistics are only available since the beginning of the Corona crisis.

- The number of visitors is half a million students
- The number of sessions is one million
- The number of page views more than 6 million.

الصف

الصف

-The number of educational materials available is 235,000 educational subjects + 4000 electronic tests + more than 32 thousand subscribers + more than 2,400 educational videos and more than 750 teachers' videos.

Rawafed was prepared in advanced for all students in all grades so Rawafed Gate indeed is the first educational site in Palestine which helped our students in this crises and make a great connection with students.

These statistics done by the director of the site :
Dr.Akram Ferwana

2-MINISTRY OF EDUCATION RADIO

Aims: Statistical Points

- Watching live videos on the Facebook page, more than 4 thousand students for all subjects. Teachers can reply by comments for students questions.
- Students who do not have internet access can listen on radio wave102.1 in easy way.

3-GOOGLE CLASSROOMS

الرئيسية < الصفوف الافتراضية

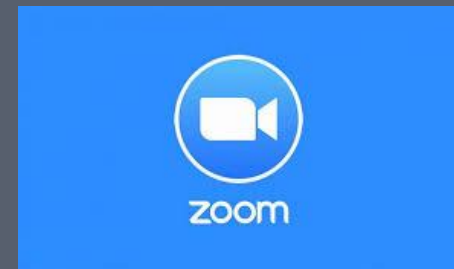

Aims

- This is a new way for having teachers and students more close by sharing special links for all students with their teachers for questioning, sharing exams and evaluating students progress in subjects 'skills.

4-PLATFORMS

Like me a lot of teachers connected with their students by free platforms
For example:

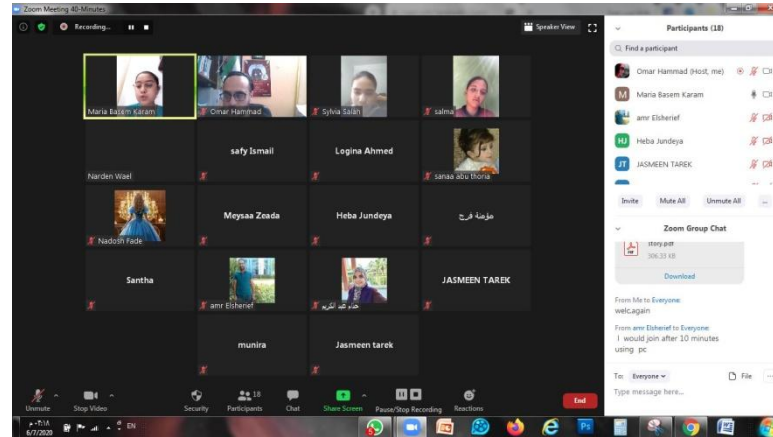

5- WHATSUP GROUPS

INVESTMENTS DURING QUARANTINE

- Many teachers enrolled in free courses during the quarantine period
- Participation in many international conferences and benefit from new experiences.
- Attending global and local webinars in various disciplines for the majority of teachers.
- Developing the capabilities of dealing with different electronic platforms because as you know ...” **Necessity is the mother of invention**”.
