

On Tuesday, we welcomed the first group and the second group of Italians in our classroom.

Meriem introduced the different special fields in our vocational school and after that, we showed to them our different drawings and what theme it was about.

Then, we did the visit of the school and we introduced to them the several classrooms with the special fields.

On Wednesday, we met the Italians at Opera in Paris and explained to them the History of the Department Stores and went to Galerie Lafayette and Printemps. We visited the different departments and took photos.

I really enjoyed these two days because the Italians were kind and we got along well. I got the opportunity to practice my english and itw as cool.
