

The Fjallraven Kanken is one of the most versatile backpacks you can buy. Its main compartment is spacious, and the seat cushion is removable. It also has space for two bottles of water. The Kanken is easy to carry, with thin shoulder straps and a front and side pocket.

Kanken fog

Kanken backpacks are among Fjallraven's most popular products. Originally created to prevent back problems among schoolchildren in Sweden, the Kanken is now widely available throughout the world. It is made of durable Vinylon F fabric and has a large, spacious main compartment with an ample zip and opening.

The Kanken rainbow backpack is available in various colors and sizes to match any style. The backpack is light, water resistant and durable. The zippers are of high quality. Its simple design and rectangular shape make it easy to find your items. The wide range of colors makes it an excellent choice for travelers.
