Quick Tips For Buying Laptop Computers

By POS Central India

An Overview Of Laptop Computers

Laptop computers are more convenient to use because of their portability. They don't need to be tied to an electric outlet for power as they pack high-powered batteries for all-day working. Also, they come in a wide variety of screen sizes, and power options like processors, RAM, and battery.

Determine A Screen Size

You can [buy laptops online in India](#) in varying screen sizes depending on your needs and budget.

Tips for choosing a screen size:

- 12.5 to 14-inch screen provides a balance between usability and portability
- Buy 11 to 14-inch laptop for movies, music, Internet, and emails
- 12 to 16-inch is good for office work, and online studies
- Up to 17.3-inch screen for 4K editing, and 3D animation

Choose Your Specs

Buy an HP laptop online with the right specifications that can accommodate your present as well as future needs.

Tips for choosing laptop specs:

- For basic jobs: Intel Core i3 (Up to 8th Gen) and Core i5 (Up to 6th Gen) or AMD A4, A6, A9, and Ryzen 3 and Ryzen Pro
- For work and studies: Intel Core i3 (9th Gen+) and Core i5 (7th Gen+) or AMD Ryzen 5 and Ryzen 5 Pro
- For high-end gaming and editing: Intel Core i7 (9th Gen+), Core i9 (10th Gen+), and Xeon, or AMD Ryzen 7, Ryzen 9, and Ryzen Threadripper.

Opt For A Higher Battery Life

[Buy a Lenovo laptop online](#) with good battery power to support your activities all day. Consider the following factors while choosing a higher battery power.

- The higher mAh/Wh, the longer operating time
- 10.8V battery comes with 6 cells and 14.4V has 8 cells
- Most laptops come with 10.8V batteries
- 1Ah means 1A power for an hour

Consider Design

A [laptop for sale in India](#) is an opportunity for you to choose the best design for a laptop. And every design fulfils a specific need.

- Popular laptop designs:
 - ❖ Regular clamshell design for basic user
 - ❖ 2-in-1 design for smart user
 - ❖ The clamshell design provides added safety
 - ❖ 2-in-1 designs added convenience
 - ❖ 2-in-1 laptops can be used as tabs

Compare OS Options

OS is the operating system that makes the interface of [laptop computers](#). And your options for OS are Windows, Linux, and macOS. Choose an OS according to your needs.

- ❖ Basic Level: Windows is just perfect for doing basic jobs like watching movies, listening to music, and checking emails
- ❖ Middle Level: Windows/Linux/macOS all support office work, online studies, and multitasking
- ❖ Premium Level: Windows/macOS is a better OS for premium jobs like 4K editing and 3D animation

Advantages of Windows/Linux/macOS

- Windows: It supports third-party programs and software
- Linux: It is an open-source OS and most popular among IT professionals
- macOS: Artists, designers, animators, and editors who use Apple laptops prefer macOS

Consider Future Needs

Today you can easily [buy a Lenovo laptop online](#) at a discounted price, but you get a machine that can accommodate your present as well as future needs.

- ✓ Consider upgradability of a laptop
- ✓ Determine your future need for specs
- ✓ Calculate the cost involved in up-gradation job
