

POS CENTRAL AUSTRALIA

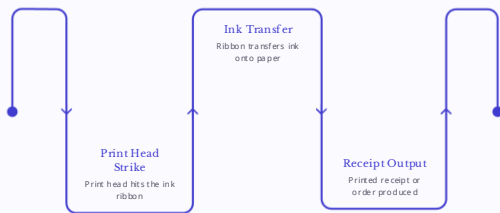

Dot Matrix Printers for Reliable Receipts & Kitchen Orders

Reliable receipt printing for retail, hospitality, kitchens & POS environments

What Are Impact / Dot Matrix Receipt Printers?

How Impact Printing Works

Impact Receipt printers create printed characters by physically striking an ink ribbon against paper — a proven method trusted across Australian POS and hospitality environments.

- Prints on multi-part forms and duplicate copies
- Well suited to kitchens, restaurants and service counters
- Handles heat, moisture and challenging conditions where thermal printing may fall short
- Used for receipts, kitchen orders, invoices and transaction records

☐ Ideal when durability, operational reliability and multi-copy printing matter.

This simple mechanical process delivers consistent, reliable output even in the busiest commercial environments.

Key Features of Impact / Dot Matrix Receipt Printers

Reliable Impact Printing

Consistent output during busy operations.

Multi-Part Printing

Prints duplicate and multi-copy documents.

Kitchen-Friendly

Performs where [thermal printers](#) struggle.

Durable Design
