Point-Of-Sale Basics to Get Started

About Us: POS Central Australia

POS Central is your location for point-of-sale hardware, software, and supplies. We guarantee you will find the right product to meet your needs at the best price possible.

Our team has extensive experience in POS hardware and working with different POS software systems. We can help you make the right purchase decision so you, too, can understand the benefits of automating your business processes.

Solving your point-of-sale problems is our specialty. We have access to a wide range of solutions specially designed for the hospitality industry. Our POS systems are second to none, and you can tailor them to suit your business needs. We will assist you through the process, whether you already use a [POS System](#).

We have one of the largest ranges in the Australian Market, and we always aim to have something that suits you. That's why at all times, our customer support team will be on hand to ensure you are fully functional.

Barcode Scanner: For Phones, Tablet and PC

Barcode scanning is the most basic way to find out what's in a box. Whether you need to track inventory or want to ensure that the food you've ordered is precisely what you expected. This solution will help you ensure everything is on time and in proper condition.

You can use them on phones, tablet PCs, and even your laptop! There are different interfaces available.

Corded: These scanners use a cable that connects to the device you are scanning. They usually have two ports for power and data transfer.

Bluetooth: Bluetooth [barcode scanners](#) work with Bluetooth-enabled devices such as smartphones and tablets. You will need to download the barcode scanner app onto your device before you can scan.

Portable Scanner: Portable scanners are small enough to fit into your pocket or purse to scan anywhere!

Wireless Scanner: Wireless barcode scanners are available for smartphones, tablets, and laptops. This type of scanner lets you scan from up close or long distances away from the device itself.

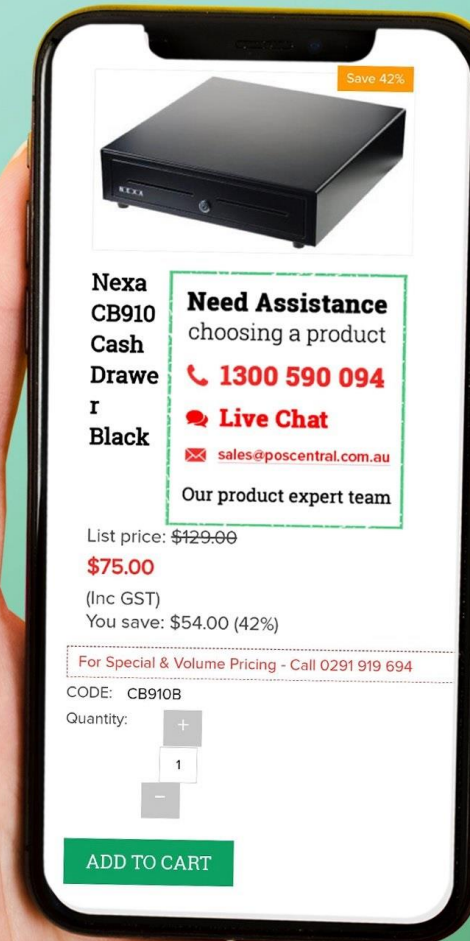

The best part? They're all affordable and easy to use!

Cash Drawers for Businesses

- The [cash drawer](#) is an essential part of any business and the one you'll use the most. You need a reliable one that you can rely on to get the job done. We've got just what you're looking for at POS Central.
- We offer our customers multiple options regarding design and features. So, no matter what style or size works best for your business, we've got something for you. We have options for everything from small businesses that only need one drawer to larger companies. We'll have a product designed specifically for whatever type of business you run!
- Our cash drawers are designed to help you track your cash flow so that you can make informed business decisions. In addition to being sleek and stylish, they're also durable and secure. So, you can use them day in and day out without worrying about the impact on your bottom line.

Basics of Label Printer

- We use Label Printers to print labels and tags onto paper. You can use them in various applications, including business, industrial and educational settings.
- The most common uses for label printers include:
 - Marketing and advertising
 - Product labeling
 - Shipping labels
 - Medical documentation
- In today's world, label printers are essential when it comes to ensuring that you convey crucial information correctly. However, they can be pretty expensive and complicated.

LABEL PRINTER

Receipt Printer for Every Situation

- The [receipt printer](#) is a device that prints and stores receipts. You can connect it to a computer or a network, or sometimes it has a built-in printer.
- You can use them in different situations:
 - To print out the bill of sale of goods bought at the store;
 - To print out tickets and vouchers that you can give away during performances;
 - To print out tickets when buying tickets for events;
 - To print out invoices when selling goods and services;
 - To print out payment slips when making payments online;
- It's no wonder that receipt printers have become such a popular option for retailers.

Why choose a POS Bundle?

POS (Point of Sale) is essential to any retail business. You can use them to manage and maintain customer transactions, track sales and general information about customers and their purchases.

POS bundles help you operate your business efficiently with no extra costs. We offer various POS bundles for different industries, including restaurants, cafes, banks, supermarkets, corner shops, etc.

Our **POS bundle** includes all the essential components like receipt printers, barcode scanners, cash drawers, etc. These are provided at a very affordable price to save money on your monthly expenses.

We have extensive experience with hospitality and retail point-of-sale systems. If you need POS supplies or hardware, please contact us today at 1300 760 642 or email us at sales@poscentral.com.au or fill in our online contact form, and one of our team members will respond inquiry promptly.
