

Cat Enclosures - Commercial Cat Enclosures & Cat Runs

A collection of user submitted photos of home made & commercially built cat enclosures.

Commercial Cat Enclosures:

There are now several companies in Australia (and I'm sure worldwide) who supply & install cat enclosures. Some come pre-made, others are custom designed to suit your needs. These are good when you don't have the time, interest or skill to design & install your own enclosure.

This cat run is made by Catnip.

Maurie & Jenny of [Funky Cat](#) submitted the following photos of their newly built cat enclosure. This enclosure was built by D & L Classic Pet Enclosures.

The next enclosure belongs to Helen & is for her straight coated Selkirk Rex Hamish. It was built by Metland Products.
