

NOTICE

The purchaser agrees when purchasing this plan (the "Plan") that he/she shall have the right to build or construct the object or project set out in the Plan (the "Project") for his/her/its personal use only and not for any other purpose. The Plan in whole or in part by any means whatsoever is strictly prohibited.

3) Blueprints For The Handyman shall not be liable for any willful or negligent use of the Plan, this Project, or any other project, to construct the Project or for any loss or damage resulting therefrom.

NOTE: Read all directions before beginning

Corpenenters Glue should be used to reinforce all joints

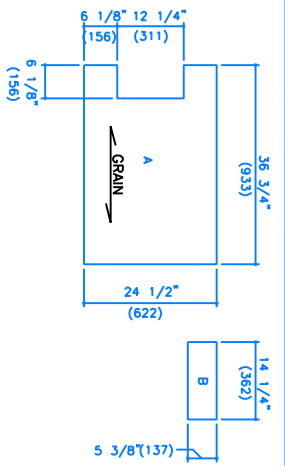

Set all nails and countersink all screw holes

Dimensions in brackets denote millimeters

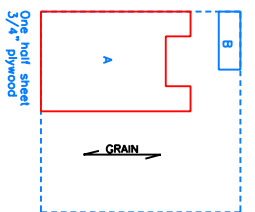

Directions

- 1) Lay out your material on the workbench, or on sawhorses, as outlined in the materials layout (Fig 1) and Fig 2). Draw out all joints exactly on the workbench or sawhorses. Leave a small space between cut lines to allow for the width of the saw. Before cutting, double check all measurements to ensure they are correct. Always cut on the waste side of the line. Sand all edges, sanding in a motion from the inside of the wood to the cut. Use a jigsaw to cut the handles in pieces C (Fig 3). Use a miter box to cut the 45 degree end cuts for pieces K and L, the long measurements are given.

MATERIALS LIST

- Approx. twenty 3" #8 finished screws
- Approx. fifty 1 1/2" #8 finished screws
- Approx. ten 1 1/4" #8 finished screws
- Approx. seventy five 2" finishing nails
- Approx. seventy five 1 1/2" finishing nails
- Eight 7 1/4" (3/4"x3 1/2")
- One 8 1/4" (3/4"x3 1/2")

MATERIALS LIST

- Two 6 2x2 (1 1/2"x1 1/2")
- Two 8 2x2 (1 1/2"x1 1/2")
- One 48"x48" sheet 3/4" Plywood, good one side
- Twenty four 6"x6" Ceramic tiles
- Two 6"x1 1/2" wheels (wood preferred)
- 23 1/2" threaded rod (1/2" dia)
- Four 1/2" nuts

MATERIALS LIST

- Four 1/2" washers
- Corpenenters Glue
- Stain
- Sandpaper
- Glue for tiles
- The grout
