Aside from taking pleasure in providing a great service for all of our customers, we also enjoy keeping our equipment and tools in tip-top condition. We also believe that maintaining our tools and equipment to the highest possible standard is a prerequisite for doing a good job. Grass tops will be cut neatly, without damaging the stalk, meaning you won't have a brown garden in a few days, due to damaged grass. Lawn edgings will be ruler straight, highlighting the shape of your driveway and path.

We take the health and safety of ourselves and our customers very seriously. Your safety is important too, so we make sure to place signs that let you know where we are working, keeping you, your family and your visitors safe at all times.

If you happen to be out when we perform the work, we want you to arrive home to a freshly mowed lawn which sets your house off and makes you feel happy that your property is worth more than before we arrived. We can tell by the reactions of our customers that returning to a home with a freshly maintained garden is pleasing to them. Jim's Mowing will leave your lawn looking neat, tidy and healthy, with sharp, straight edges. Your hedges will be neatly shaped and clipped, and your garden tidied up once we have finished. And of course, as we are doing the hard work, all you have to do is simply to sit back and enjoy your clean and tidy garden.

We put great faith in providing an exceptional customer experience, and enjoy being part of the Jim's Mowing team, with their great reputation for putting the customer first. We are fully trained in all safety aspects of garden maintenance, and have been accredited with a full, current police check. When we are working in your garden, even if you are out, we will work safely and efficiently, in the true Jim's Mowing tradition.
