

Christmas decorations

By Nojus Paulauskas

Christmas trees
are often decorated
with colorful shiny
plastic toys

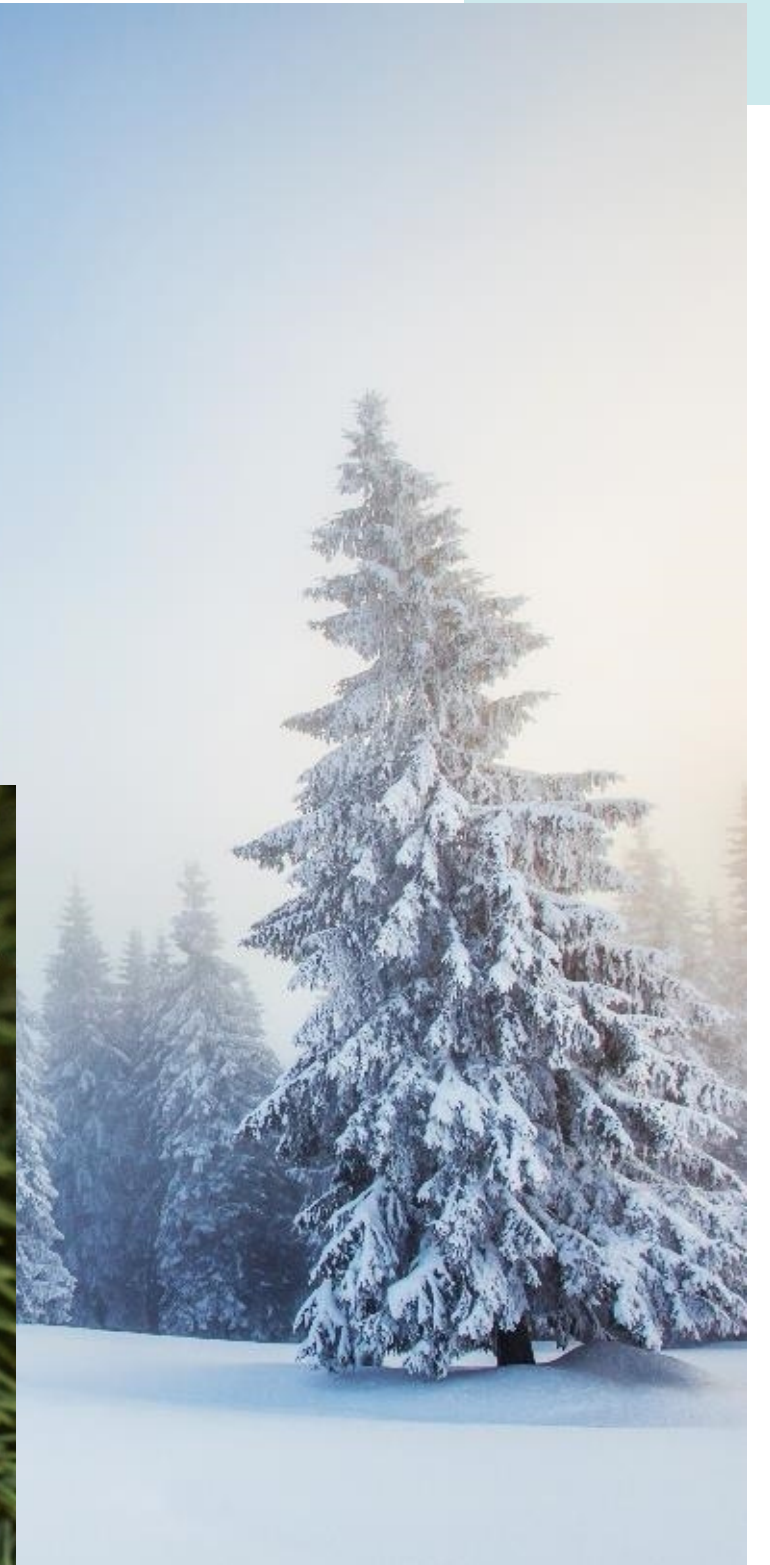

In the old days...

people used to decorate Christmas trees with glass toys, apples, candies, gingerbread, straws, wooden toys, pine cones, nuts and other natural goodies...

A part of people increasingly strives for naturalness, ecology, simplicity, turns to traditions, searches for meaning.

Christmas trees are decorated with handmade toys made of natural materials that preserve beautiful memories.

Our family made some Christmas decorations...
