

MEMORIX

MEMORIX is a memory game. Student Dorian created his MEMORIX game on the theme of trees. This game is made for 2-4 players.

GAME CONTENT:

- 16 large cards;
- 16 small cards;
- 16 counters;
- 2-4 playing pieces;
- die.

Object of the game: Players need to find the hidden tree themed cards and collect counters to win the game.

How to play: Place the large cards with the illustrated side face up to form a square. Place the small cards so they are also face up in the middle of the square. The first player start throwing the die and move the playing his piece around the large card in a clockwise direction. The tree themed card you land on indicate the small card you must turn over in the middle. This ends the turn. The next player throws the die and also moves his game piece, then closes the card. When you land on a large card that has already had the matching small card turned face down, you have to remember where this card is and find it.

If you find it, you may take a counter, the first player who collects 4 counters win.
