

Seed adventure

by Viktorija Burenkova

I am an apple seed and I will tell you my story.

I was in an apple, someone took it and ate it. Then the person took me, the seed, and planted me. First he planted me in a pot with soil, put me on a windowsill where there was bright sun.

Then, in the warm spring, the man took me outside. After 5 months, I grew one twig. I was watered every week and years later I grew into a beautiful apple tree.

My apples are red and delicious.
