

# Autumn wonder

by Emilija Mickutė

# Materials:

- Pencil;
- scissors;
- paints;
- water and brushes;
- gloves;
- hot glue;
- acorns;
- walnuts;
- chestnuts;
- hazelnuts;

# Workflow:

- - I took 2 bowls of different sizes, traced them with a pencil and cut them out with scissors;
- - I gathered different tree seeds from the yard, painted them in different colours and waited for the paint to dry;
- - When the paint was dry, I started to glue the prepared coloured tree seeds to the cardboard with hot glue. I started with the largest concordes and then smaller ones: chestnuts, walnuts, acorns and hazelnuts.
