

"ARRANGE THE
SHAPE "

Summary. An educational game to learn about shapes and develop motor skills.

Materials. Wooden sticks, playing cards and victory bell.

Preparation. Place the cards with the pictures of the shapes face down on the table and distribute 20 sticks to two children.

Activity. Draw one card and use the wooden sticks on the table to put it together as quickly as possible. The child who first puts together the picture from the sticks presses the victory bell.
