

CLIMBING UP A TREE

This is a board game, where you race to climb up and down a tree with hand made game pawns and a dice

Resources.

To make a game like this you need: paper sheet A3, crayons, markers, 3d pen.

We also decorated the game with some interesting facts about the trees.

Preparation.

To prepare this game we draw a big tree on the big paper sheet and some leaves falling down and wrote some interesting facts about the trees.

We also made a dice and game pawns with 3d pen

Activity.

You need as many pawns as is the number of the players.

All the players set their pawns on the ground on the mark which says: START.

Following the arrows you move up the leaves the number that you throwed on the dice. Each colour of the leaf means something – the legend on the side will instruct you what to do.

When You reach the branches follow the arrows. The winner is the person who first reach the finish point.
