MONDAY

THE EUROPEAN DINNER

We arrived this day and then had 2 hours to prepare the Food.

Every Group from each country brought specialties from home. Everyone met in the tent to get a look and eat the specialties from the other countries.

First conversations were made while eating.

This was the Beginning of our wonderful time in Luxemburg

WEDNESDAY

Aquaponic farm

Aquaculture involves raising fish to fertilize the water, which is then used to irrigate plants. Tomatoes, strawberries, lettuce and green beans grow in this water.

Visit of a natural wood

We calculated our carbon footprint over two days in kilograms.

Biodiversum

Walking around the many lakes created and maintained by humans and observing many birds and other animals.

Our visit in Luxemburg City in combination with the City rallye

Station 1

The exercise was to finish as fast as possible through the obstacle course and not drop a single Cup of water what we achieved.

Station 2

The Goal is to fill a big can with water. You slide the waterslide grab a bucket and fill it up. After that you ran up the hill in fill it in the big can.

Station 3

There are 3 runners who grab boards and bring it up to the climber who climbs up and down the big tree.

Station 4

You must put the pieces into the right Place while you Hang down on a builded construction.
