

1 Bag it is
3 crocodiles

Today, we are faced with a big issue, poaching more precisely poaching of the crocodile. The skin of crocodile is a product coveted by luxury brands for example Hermes.

This crocodile skin brings a lot of money, which incites the poachers.

This issue causes in the disappearance of this species, the use of firearms, large traffic and intensive breeding.

We plan to create reserves, to protect the habitat of the species, increase in criminal sanction and of course hire men to monitor the traffic.

We will meet you on Sunday, June 04 in front of the bag factory in 12 Street of Republic, London
