## *Air pollution*

the cause we wanted to defend is air pollution .

The causes of air pollution is combustion mater first-born and cars petrol

The consequence risks,dangers are the allergy,crisis asthma,maladi bronchial .There is an extimation of the population and there are 7 miloins of die with air pollution. There is a cancer lung ,the air polltuion is the second cause of dead on the world

The solutions are use car electric, bike,scooter and stop the usine of charbon and petrol The actions we are going to take is a day whitout a car the 1<sup>st</sup>january on London. On the right of Oltrafford staduim
