

The shark finning

Shark fin shishing involves capturing sharks to cut their fins. Then trows the sharks back into the sea. The fins are used to make traditional Chinese soup which have many virtues therapeutic according to the Chinese but this his fake . The causes are that it brings in a lot of money 250\$ a bottle and 550 000 000\$ per years. The consequences are the disappearance of sharks 26 to 73 million per year between 1986 and 2005. The possibles solutions have more control, prohibit this, demonstrate that the soup is useless and reduce the price of shark fins. To avoid this Théo and Robin are going to make a video to raise awareness of « shark finning » by showing them shocking images of sharks killed and sell our T-shirt with the logo « stop killing shark » at the price of 5\$ to give Chinese association.
