

We need you!

The deforestation is a scourge, and he needs to occupied of this problem. And I have an idea, we plant a lot of tree to stop the deforestation. You use papers for write and impress, and you use woods for build table and chaise, and we don't replant tree that you cut behind, but you can change that. You can come with friends for help to replant trees, we don't need to come with tools.

We are waiting for you on March 27 at 2 p.m. at Clifton Park and Museum to plant trees with you
