

I DEFEND THE ANIMAL CAUSE BECAUSE THEY'RE
IN MORE AND MORE DANGER...

THE CAUSE OF THEIR DISAPPEARANCE ARE:

- deforestation which endangers the koalas,
for example*
- the melting ice which is killing more and
more walrus*
- poaching which kills elephants for their
tusks*
- lack of food which affects polar bears*
- and especially climate change which is the
main cause*

Solutions to reduce the causes

- PLANTING A LOT OF TREES**
- REDUCTION OF GAS
EMISSIONS(NEW TECHNOLOGY LESS
POLLUTING)**
- BIGGER PENALTIES AND MORE
SUPERVISION**
