

# Danger of water pollution

Today i want to warn you about **water pollution** because do you know there is about **8,3 billion** of waste such as plastic bottle and oil and the consequences are terrible like endanger of water wildlife or species that are disappearing or the intoxication of water .

to clear this problem we can clean the water of the waste.

On our side we will make a **race starting at Boulogne-sur-mer and finishing at calais this race will do 25 kms this event will start the 10 march 2022** the cost of participation will be

of 10€ the benefit will be out back for the association « *cousteau* » that are fighting against **water pollution** plus at the end of the race we can make aware of **water pollution** with a small talk about water wildlife.

**WE CAN BE HEROS YOU CAN BE THE HERO**
