

Our nature, forever

Watch the video and do the tasks :

what type of document is it ? **It can be an awareness campaign for the protection of the Canadian environment OR a video promoting the nature champions summit**

1. List the different landscapes you can see in Canada :
forest – mountains – rivers – oceans – seas – grassland/prairies - waterfalls

2. List the different animals you can see on the video :

bears – fish – deers – seals – birds – buffaloes – mammals – mouflons – geese/ducks – huskies (sledgedogs) – turtles - antilopes

3. Complete the following sentences :

Canada is home to 25 % of **earth's wetlands and boreal forests**

20% of **earth's fresh water**

It has the **longest coastline** in the world, **precious habitat** for birds, fish and mammals.

4. How do you call the natural phenomenon you can observe in the Canada mostly during boreal winter (see video 1') : **northern lights (aurore boreale)**

5. List the threats Canadian nature has to face :
forest fires – (water) pollution – urbanisation (carbon emissions) – animal habitat destruction

What are the solutions ? ACTION, with the help of the First Nations (indigenous people, those who lived in Canada before the Europeans came)

You can also increase the amount of nature protected
