BERLIN

Freie Universität Berlin

- Freie refers to freedom, not cost.
- The University was formed to give students freedom to study subjects they wanted without fear of persecution

There are pre-semester German courses available to help with language skills and making friends. You will need about 30 credits per semester, some only require active participation (no exam). Unless you are fairly fluent, courses will be in English and there are plenty of English taught courses on offer including specific 'Erasmus' courses on offer There is a 2 month break between February-April (perfect for travelling) and the university provides a subsidised travel pass for the year

Helpful facts about Germany:

- VISA REQUIRED (£££)
- No shops open on Sundays
- Slightly higher cost of living
- English very widely spoken
- Extremely safe for men and women
- Cash only in majority of places

- Berlin has some of the best clubs in the world
- It has one of the most diverse food cultures as well
- Extremely easy to navigate with very reliable transport
- Very significant historical sights to be seen
- Great connections to the rest of Europe to go travelling
- Extremely open and inclusive to all Genders, races and orientations
- Make a network of friends from all over the world
