Studying at CityU

- Highly international university, with exchange and other international students from all over the world as well as local students from HK and Mainland China
- Lots of diverse course options, you can take up to 2 out of 5 units in non-science subjects, and there are a lot to choose from
- Well connected location in Kowloon, easy access to everywhere in the city

Studying in Hong Kong:

- Easy travel – Cheap and efficient public transport, visa free access to mainland.
- Lots of great food and other things to get out and enjoy in HK

Courses taken:

- Some recap chemistry content
- New chemistry content
- Cosmetics
- Korean language
- Astronomy physics

More interesting and unique academic opportunities:

- Cosmetic chemistry – making cosmetic product project, class trip to cosmetics factory
- Astronomy stargazing.
- Study Asian languages and travel to speak (Korean, Japanese, Mandarin & Cantonese)

Other Regular Academic opportunities:

- No requirement to study chemistry or your major in general, just 3 units per semester in College of Science (Chemistry/Physics/Maths)
- Can take GE courses – no need for any prerequisite knowledge at all.
- There may be courses you didn't have the option to study at bath, e.g. astrophysics, group theory.

My Recommendations:

Victoria Peak for sunset in Summer/Autumn, can be too foggy in winter for the best views
Eat lots – Hing Kee, Cheung Hing Coffee Shop, Kam Wah's, Kam's Roast Goose, Bedanas
Get out and go hiking, get away from the city too
And go to other countries you want to visit as well!!
