

Taboo® - Easy

These are cards of my own creation, inspired on the board game Taboo®. I use them in class for practicing vocabulary. I've included a link for the instructions. There are 3 sets of these cards: Easy, Medium and Difficult. I've also made a blank of each so you, the teacher, can create your own, with your own vocabulary. There's also a page with the backsides, but it's big in size, so I'll have to post it as a different printable.

Instructions:

You can play this game with 2 students or more, as a competition or simple practice. There should be at least 1 player with the card and one player guessing in each turn. The objective is to get the other player to say the word on the top of the card. The player with the card cannot use the words on the list to get the other student to guess the correct answer. So, for example, if the word is Soup and you can't say *Liquid, Food, Eat, Drink or Noodles*. You could say: "Something you have for lunch or dinner. It's not solid. It's often sold in cans. Campbell's is known for this. You can make it out of chicken broth. Etc"

Here are the original game instructions:
