

BY ALYONA KIKHAY

COSMONAUTICS DAY

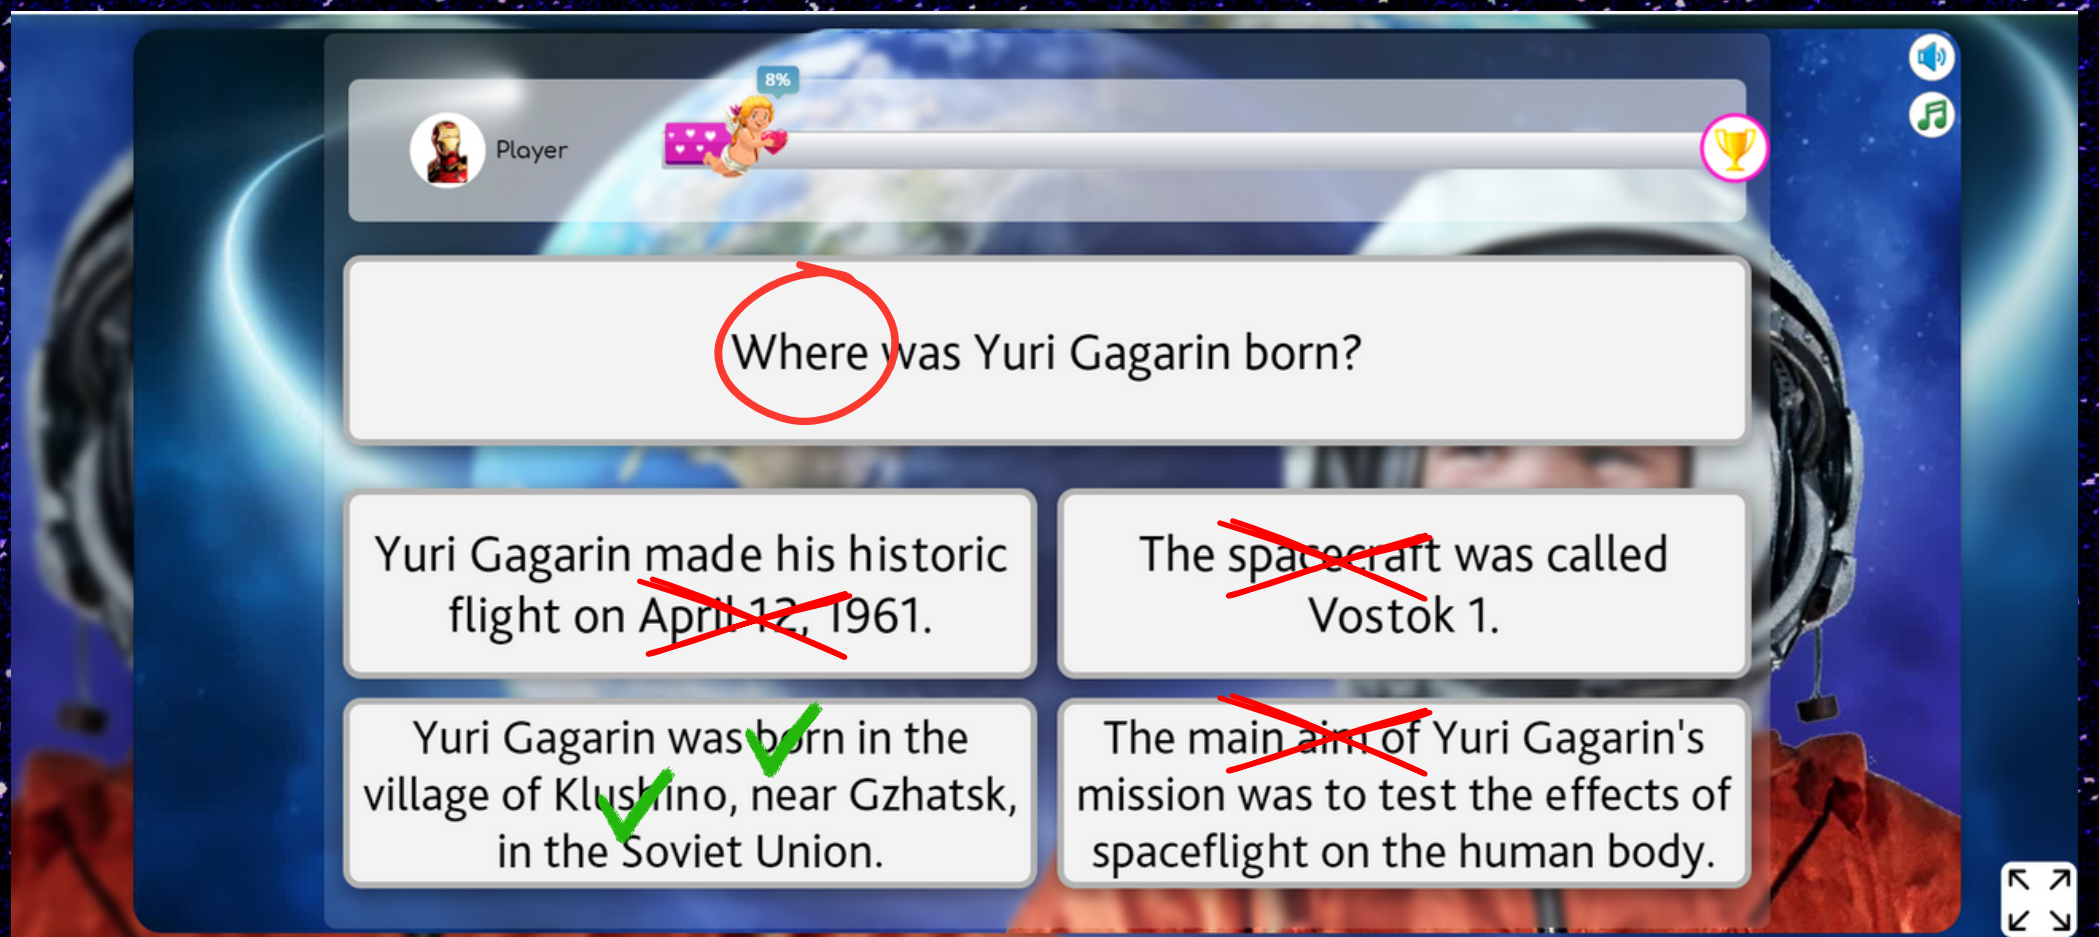

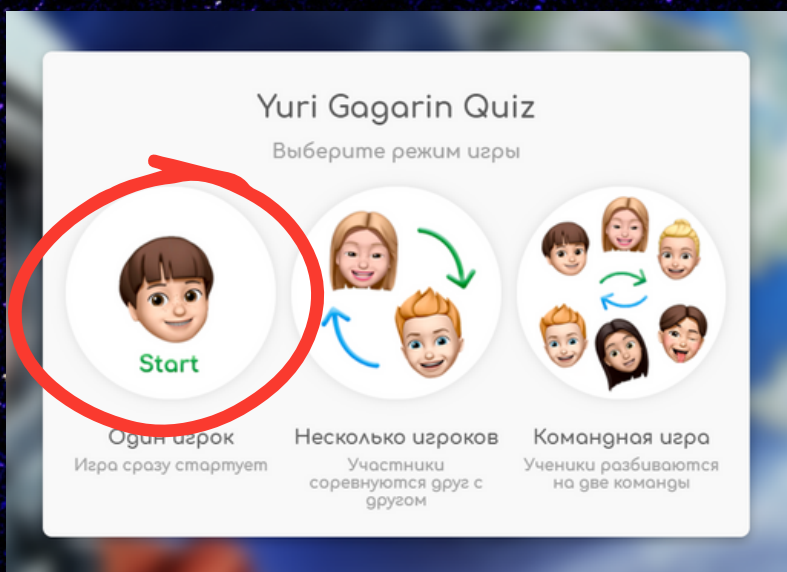

YURI GAGARIN

QUIZ – STEP 1

First we do the Quiz together as a class - teacher's screen sharing.
Teach students to pay attention to details and look for the key words.
Encourage them to guess even if they don't know answers for sure.

QUIZ – STEP 2

For this step you stop sharing and give the link to join the Quiz

MEMORY

Play Memory game. The questions and the answers are the same. Make your students become confident of the facts that they've learnt

BOARD GAME

This is the fourth time students see the questions. So be sure by this step the students have kept the facts in memory and they're confident enough to play the board game.

By the end of the lesson the students will have learnt 14 facts about Yuri Gagarin and will be proud of themselves to have memorised so much information.
