MAKING RESEARCH MATTER IN THE NORTH EAST AND YORKSHIRE

Celebrating progress & continuing to drive research engagement and leadership alongside clinical practice

Join us on **12th of October 2026** at The Milner Hotel, York for an interactive regional event focused on research across the nursing, midwifery and AHP professions.

- Get updates on national and regional progress in relation to research
- Connect back in with fellow colleagues across the region who are leading and or supporting the research capacity and capability building agenda
- Share challenges and opportunities to support one another as we strengthen this agenda across the region
- Get practical support and information on the range of resources available to support you
- Share initiatives related to research capacity building happening in your organisation

This event is for **nurses, midwives and AHPs** who are responsible for or delivering on the **professional research capacity and capability building agenda**, or those whose role incorporates supporting/representing their Executive Chief Nurse in relation to this work.
