CAPACITY : The student uses the written language standard in appropriate way.
DATE : Monday, June 1st, 2020

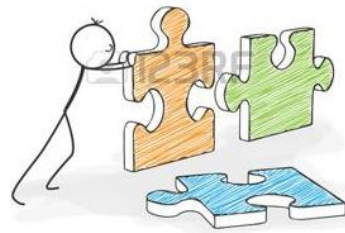

One of the biggest threats to Earth is pollution. Factories burning coal for electricity and cars using oil for transportation are just some of the harmful threats to our air and oceans. We only have one Earth that is our home and we need to make sure it stays healthy and happy so there are ways we can all help save the Earth. Let's all take responsibility for our planet and encourage others to help out.
