

Enigmes mathématiques 1

 = 15
 $15 = 3 \times 5$

 = 13
 $13 - 5 = 8 \quad 8 = 2 \times 4$

 = 8
 $8 - 4 = 4 \quad 4 = 2 \times 2$

 = ?
 $4 + (2 \times 5) = 4 + 10$
 $? = 14$

Only for GENIUS #3

 = 24
 $3 \times 8 = 24 \quad \text{Le verre} = 8$

 = 18
 $18 - 8 = 10 \quad 10 = 2 \times 5$
 Le Ramberger = 5

 = 13
 $13 - 5 = 8 \quad 8 = 2 \times 4$
 Donc 2 frites = 4

 = 
 $8 + (5 \times 2) = 8 + 10 = 18$
 = 6 parts de pizza.

 who ate my pizza?
 = ?
 $18 = 6 \times 3$ donc
 1 part = 3

$\rightarrow 5 \text{ parts } 3 \times 5 = 15$
