Mount Everest : (3) garbage dump in the world ?

Most people know that Mount Everest is (3) mountain in the world.

However there is another fact that most people don't know : it has become one of (4) mountains in the world.

Mount Everest is one of (8) and (1) mountains to climb on Earth. It is not (5) or (9) place on Earth but it comes close. These challenges make it one of (7) mountains for serious climbers. Since 1952, over 3,500 climbers have reached the top . Unfortunately most of them have left equipment and trash on the mountain.

In fact, trash is now one of (2) threats to the environment on Mount Everest. Local organizations have organized an awareness campaign and have brought tons of trash down. One of (10) project handed over [*: remettre, confier*] more than a ton of tin cans, glass bottles and old climbing tools to artists in Nepal. These artists used the garbage to create works of art. Then they sold the art to raise money for local charities . (11) artwork cost \$17 and (6) one was sold for \$2,400.
