

# Природа и население Древнего Египта

*всемирная история, 5 класс*

The illustration at the bottom of the page depicts a stylized Egyptian desert landscape. On the left, there are several golden-yellow pyramids of varying sizes. In the center, a large, bright yellow sun is positioned in the sky. To the right, there are more pyramids, some with horizontal bands of a lighter color. Two green palm trees are scattered throughout the scene, one near the center and one on the far right. The ground is represented by brown, textured hills and a yellow horizontal strip at the bottom.
