

I have the following lessons available on Teachers Pay Teachers

Solving Quadratic Equations by Finding Square Roots

Solving Quadratic Equations by Factoring

Graphing Quadratic Functions (Free!)

Complex Numbers Introduction

Operations with Complex Numbers

Adding/Subtracting Integers – I Have, Who Has Game

All lessons include guided notes, a separate practice assignment (homework), a quiz, and the Smart Notebook file that corresponds to the notes.

I am posting lessons every day. I have hundreds of lessons from all high school subjects. Let me know if you need something that isn't posted.

Each lesson is \$1.99 unless otherwise noted.
