

# A future life on Mars?

APRIL 10, 2000 \$3.99 [www.time.com](http://www.time.com) AOL Keyword: TIME

# TIME

VISIONS OF SPACE & SCIENCE

## IN THE FUTURE, Will We...

- Live on Mars?
- Discover Another Universe?
- Control the Weather?
- Travel Back in Time?
- Clone a Dinosaur?

**PLUS:** The latest chapter of Caleb Carr's novella

A large illustration of an astronaut in a white spacesuit with red stripes on the arms and legs, standing on a reddish-brown Martian surface. In the background, there is a white rover and a white habitat structure. In the foreground, a small, four-legged robotic rover is visible.
