

# A FUTURE LIFE ON MARS?

This document is a [ ] for Time, a very famous [ ] magazine.

the scene takes place on planet [ ]. I can say so because the soil is [ ].

In the foreground, I can see an [ ] who is wearing a [ ]. He is walking a robot [ ] and he looks very happy. He is probably American as there is the American [ ].

In the background, there is a [ ]. It is composed of a [ ] to travel on the planet, the [ ] where the astronaut lives and the [ ] to create oxygen and breathe.

## WOULD/ WOULDN'T: le conditionnel

### 1- Observe:

- a) In the future, I **would like to** go to Mars because it is a beautiful planet and because it **would be** a fantastic experience!
- b) During my lifetime, I **'d like to** travel back in time in order to see the people I love and that I have lost.
- c) I **would like to** go to Mars one day but I **wouldn't like to** live on Mars because it is a hostile planet and I **would feel** lonely. I **would not stay** for more than a year.

### 2- Think. Pour dire ce que j'aimerais ou n'aimerais pas faire, j'utilise **le conditionnel**.

Pour dire ce que j'aimerais: S + [ ] +B.V (forme pleine).  
S + [ ] +B.V (forme contractée).

Pour dire ce que je n'aimerais pas: S+ [ ] + B.V (forme pleine).  
S+ [ ] + B.V (forme contractée).

Pour les autres verbes que LIKE, le conditionnel se forme ainsi: S + [ ] + B.V.

WOULD est auxiliaire modal, sa conjugaison est donc [ ] .

Prononciation: le [ ] de WOULD et WOULDN'T est muet.

What about you? Would you like to live on Mars one day? Why?
