KIDS PREDICTIONS FOR OUR FUTURE

We asked **fifth-graders** at **Elon Elementary School** in North Carolina to write what they think the **future will** bring. Read some of their ideas, and then speak about what you think will happen!

AMANDA F. – In the future, there **will** be hoverboards, flying cars and pocket-size computers.

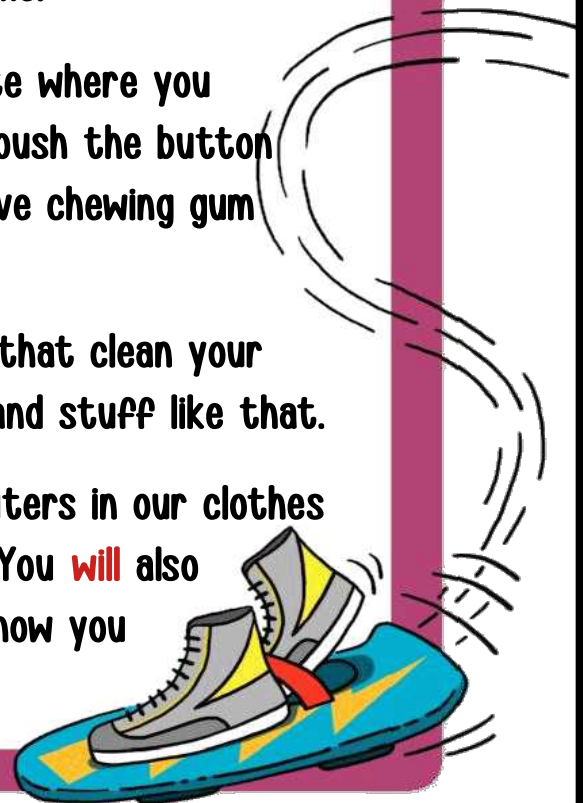

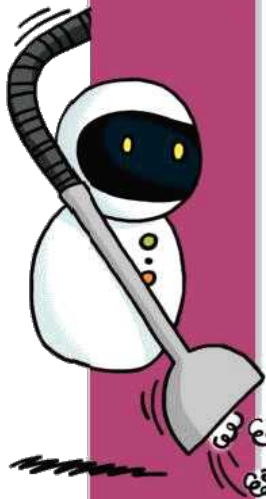

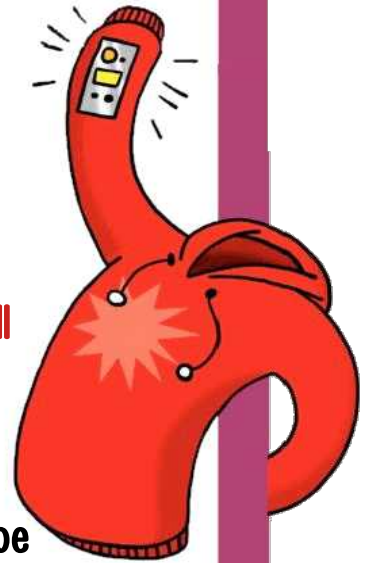

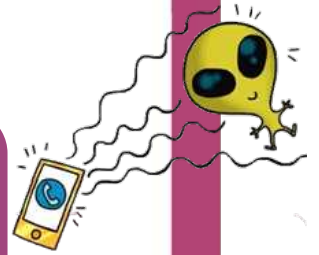

SYDNEY Y. – We **will** have robots that clean up after us. The X-box game **will** be so small it **will** fit in your watch.

JORDAN W. – There **will** be enough technology so we can communicate with aliens. There **will** be a time machine to travel through time.

DANIELLE M. – There **will** be a remote where you type in where you want to go then push the button and you **will** be there. Also we **will** have chewing gum that never loses its taste.

PATRICK D. – There **will** be robots that clean your house, walk the dog, make your bed and stuff like that.

HANNAH P. – We **will** have mini-computers in our clothes – like on the inside of your sleeves. You **will** also be able to type into your hairbrush how you want your hair to be styled.

1) Expert 1 : Read Amanda's comments and identify her predictions.
Do you think they are realistic?

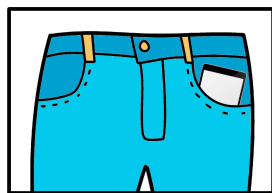

NAME	PREDICTIONS	REALISTIC	NOT REALISTIC
AMANDA F.	1. there will be overboards 2. there will be flying cars 3. there will be pocket size computers	✗ ✗	✗

2) Discuss your findings with your co-experts.

3) Groupwork : Find the vocabulary

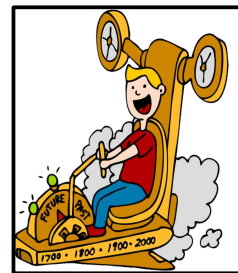

a hoverboard

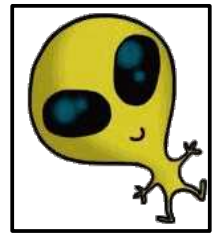

a pocket size computer

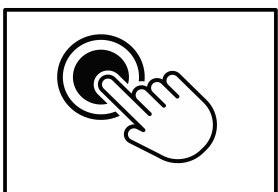

to travel

a time machine

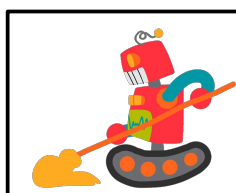

an alien

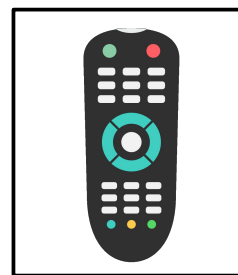

a button

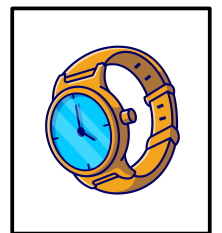

a chewing gum

clean the house

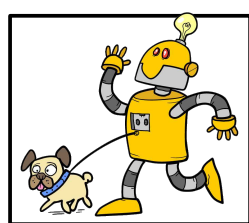

a remote

4) Vocabulary check ↻

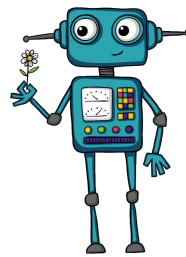

Very small <input type="checkbox"/>	<input type="checkbox"/> A remote
To move in space and time <input type="checkbox"/>	<input type="checkbox"/> An alien
A being not from Earth <input type="checkbox"/>	<input type="checkbox"/> A watch
A device to check time <input type="checkbox"/>	<input checked="" type="checkbox"/> Time travel
A device with lots of buttons <input type="checkbox"/>	<input type="checkbox"/> Pocket-sized

5) Think about it

Observe les phrases suivantes :

Robots **can** express their feelings.

Robots **will** be able to express their feelings.

Coche les bonnes réponses : ✓

Can et will sont suivis d'un verbe conjugué d'une base verbale

Can est un verbe un auxiliaire modal

Will est un verbe un auxiliaire modal

Un auxiliaire modal :

peut être suivi ou précédé d'un autre modal

ne peut pas être suivi ou précédé d'un autre modal

Pour exprimer la capacité dans le futur, on utilisera donc will be able to

PRACTISE

Réécris ces phrases en te projetant dans le futur

TODAY
