When is My Birthday?

I never can remember
if my birthday's in September
or in January, August, or July.
Or it could be in December,
or October, or November.
I've forgotten when it is.
I don't know why.

And it may be on the seventh,
or the third, or the eleventh,
though I know that sounds a little bit absurd.
Plus it might be a Sunday,
or a Thursday, or a Monday,
on the seventeenth, or thirtieth, or third.
