

2D/3D Shapes

Target Source..... Name.....

2D Shapes

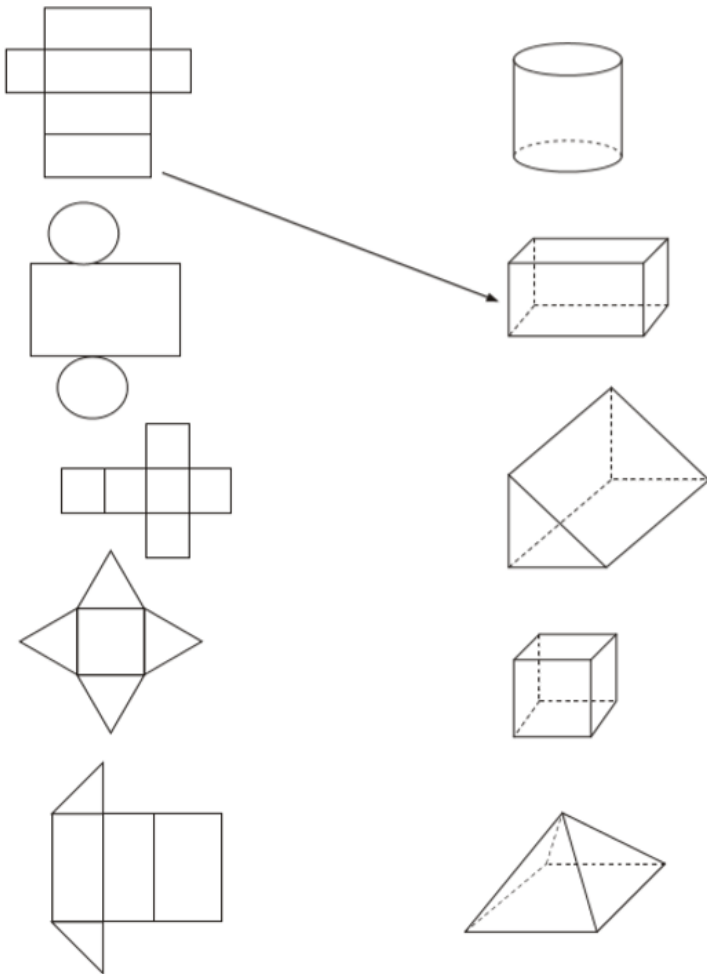

1a. Name the first four shapes and label the angles acute, obtuse or right angled.

1b. Draw in the lines of symmetry (if present) for the 6 shapes.

2D/3D Shapes

3D shapes

(1) Draw a line from the nets of the shapes to their matching 3D solids.

(2) List the 3D solids below.
