

Hi ! I'm Joey. Welcome to Manhattan Island, New York, in the United States. You've chosen the perfect day to visit the city because today there's a big contest for the best photo of the Big Apple (the nickname for New York) with a helicopter ride to be won ! Let's try our luck.

I'm spending the day with Stacey, one of my friends. We're having a great brunch to be in top shape for the first shots in Central Park. Pancakes, french toast, bagels, cheesecake... what shall we have ?

Next stop, the Museum of Natural History. Among the dozens of fantastic exhibition halls, the dinosaur one is brilliant.

A photo of Sybil and Stacey with the Barosaurus has a good chance of winning the competition !

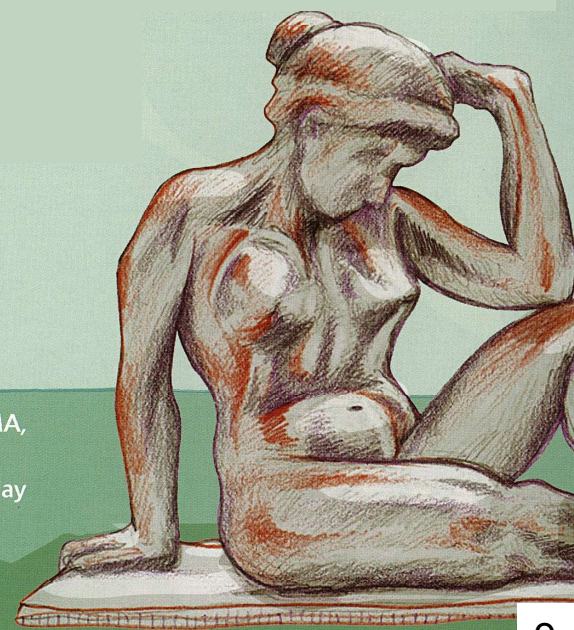

It's my dream to be a photographer !

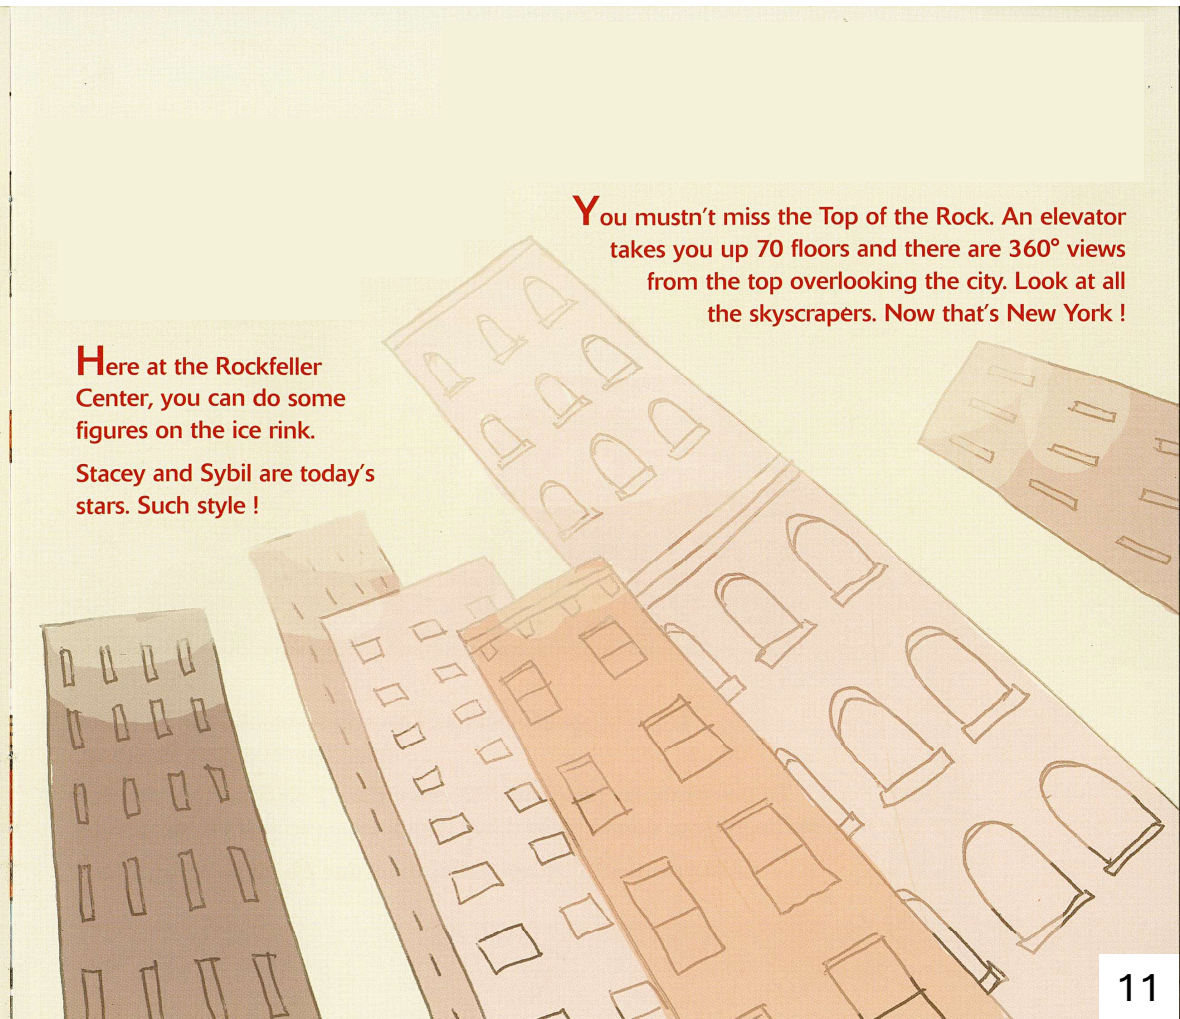

BAROSAURUS
27m - 20 tonnes

We'll find inspiration for great photos at MoMA, the Museum of Modern Art. With sculptures, paintings and workshops, you could spend all day at this fascinating place...

Come on, Sybil and Stacey, enough photos here, let's hop on the subway to Rockefeller Center !

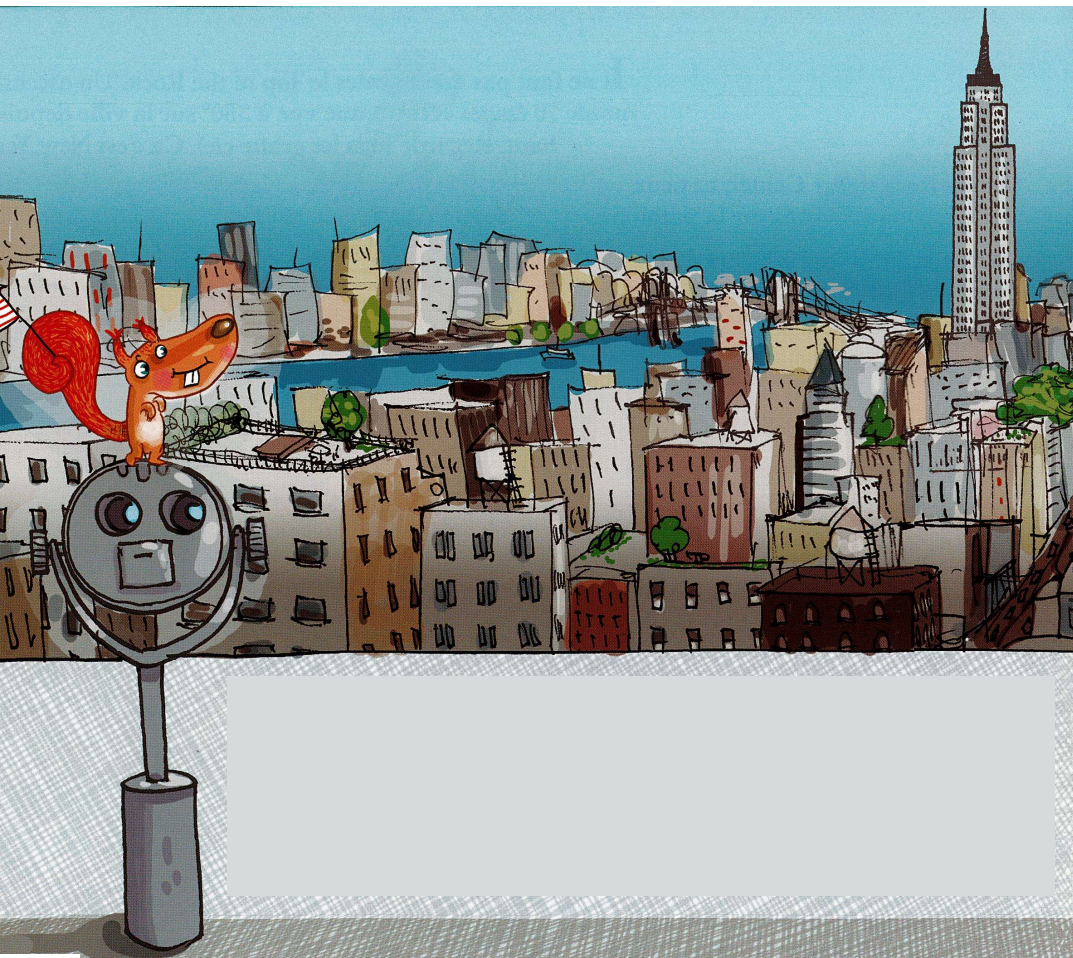

You mustn't miss the Top of the Rock. An elevator takes you up 70 floors and there are 360° views from the top overlooking the city. Look at all the skyscrapers. Now that's New York !

Here at the Rockfeller Center, you can do some figures on the ice rink.

Stacey and Sybil are today's stars. Such style !

One of the skyscrapers is often seen in movies.
It's the Empire State Building.

You can go up to the 102nd floor in one of the 73 elevators.
An audioguide tells you lots about all the monuments.

It's the perfect place for a panoramic photo !

After all that effort, we deserve a quick stop to get our energy back.

There are so many places to eat at any time of day or night in New York, but with still so much to see, let's go along Broadway and enjoy a hot dog from a street seller. Yum... delicious !

In Times Square, the huge digital screens with millions of colors are amazing.

The largest one is almost the same size as an American football field !

You can't visit New York without seeing one of the fabulous musicals on Broadway. It's a magical experience of lights, song and dance. Let's take a photo with a star !

Let's go shopping ! 5th Avenue is one of the most famous addresses in the world. You can find everything including the coolest toy store in the world. And a little further on we love Dylan's Candy Bar with 3 floors full of chocolates and sweets. Awesome !

sent

It's time to choose our best photo and send it in for the contest. How about the one of Sybil and Stacey on the ice, the ceiling of stars at Grand Central Terminal or Central Park Zoo?

The email has been sent, keep your fingers crossed.

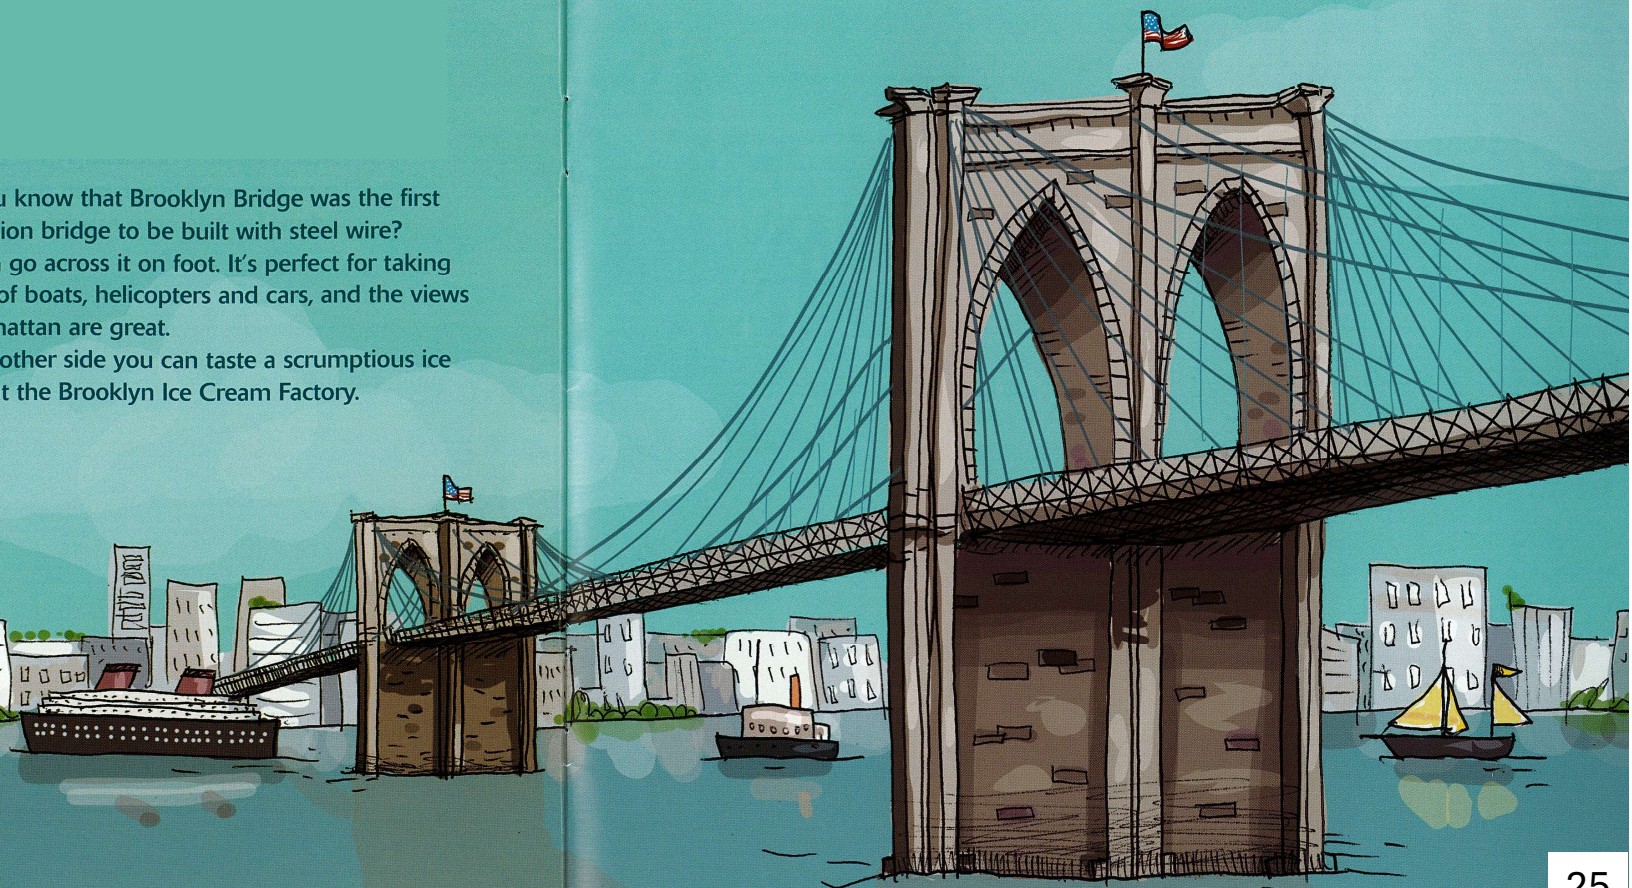

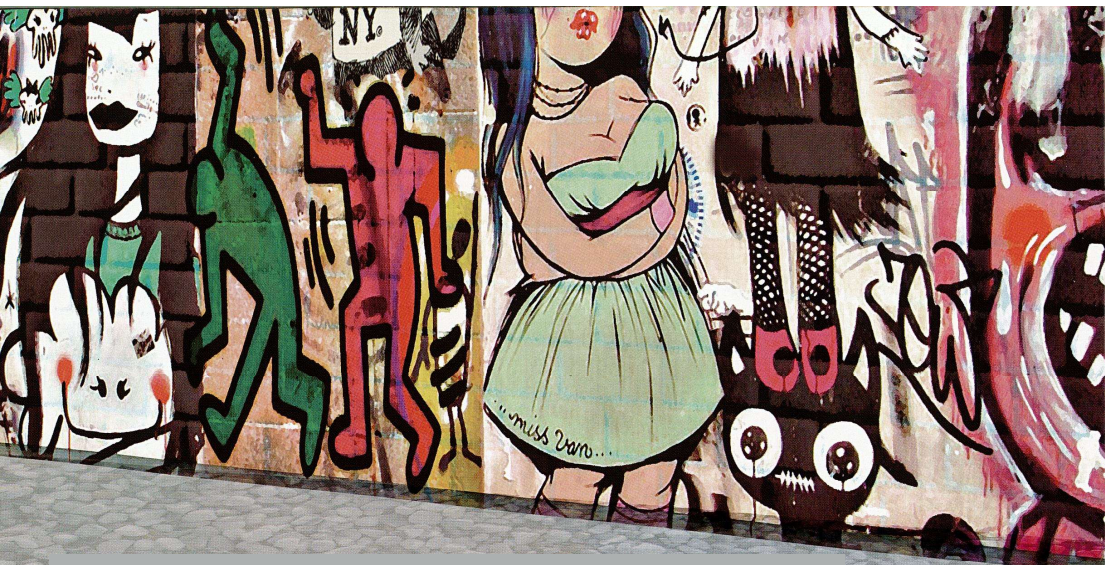

We don't have much time left. The New York firefighters in their shiny fire engine are going the same way as us. Let's ask them to take us to Brooklyn Bridge.

Do you know that Brooklyn Bridge was the first suspension bridge to be built with steel wire? You can go across it on foot. It's perfect for taking photos of boats, helicopters and cars, and the views of Manhattan are great. On the other side you can taste a scrumptious ice cream at the Brooklyn Ice Cream Factory. Cool !

The winner of the photo competition will be announced soon. We've just got time to look at the graffiti by artists in SoHo. They are so talented !

I've received a text message. They've chosen our photo, we've won ! We get the helicopter ride to see New York from the sky.
Yippee !

New York is really stunning from up here. We're flying over Brooklyn Bridge, the ferry to Staten Island, Ellis Island and Liberty Island where the Statue of Liberty watches over the harbor.

You can see her best from here. We even had the surprise of sharing our ride with someone famous. Do you recognize him ?

Wow ! What an unforgettable day ! We've got loads of great photos of your visit with us. We even met the president of the United States.

Come back to New York soon,
you haven't seen everything yet !
