Probablemente la forma más fácil de crear páginas web

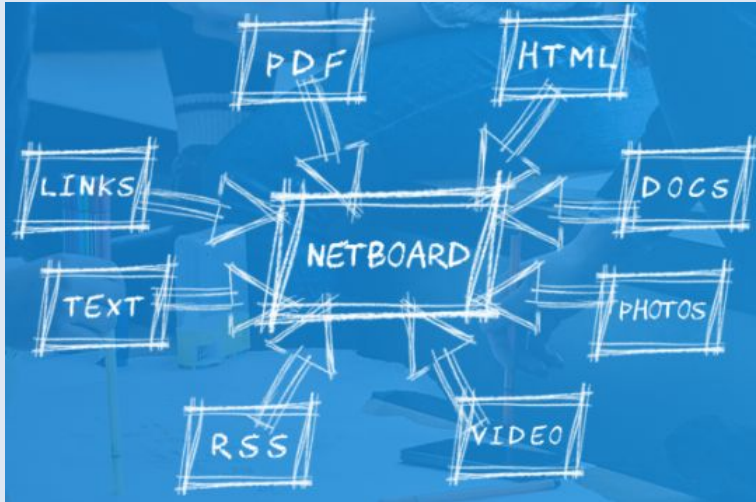

netboard.me

Netboard es una herramienta *online* gratuita para reunir, organizar y compartir contenido web.

En un **netboard** podemos incluir textos, documentos, enlaces, vídeos, fotos, presentaciones, novedades de sitios y otros tipos de material.

No hay límite para el número de **netboards** que queramos crear.

En un mismo **netboard** pueden publicar varios autores.

Accedemos a **Netboard** desde <https://netboard.me>

Dos tipos de cuentas gratuitas

Personal

Se tarda minutos en crear una preciosa página con todo el contenido que necesite

Haga su página totalmente privada, dé acceso a los usuarios seleccionados o hágala pública para toda la Web

Permita que otros usuarios añadan contenido a sus páginas

Comparta sus páginas y siga las páginas de otros usuarios

Comparta versiones en PDF de sus páginas. PDF funciona en cualquier dispositivo y no requiere ninguna cuenta para utilizarlo.

Comparta enlaces de acceso con quienes no tienen una cuenta en netboard.me todavía. Permítales ver sus páginas privadas, comentar y editar como un usuario registrado.

Inserte sus páginas en un sitio personal o blog

Organización

Registre y gestione sus propios usuarios. No se requieren correos electrónicos.

Cree grupos de usuarios y decida qué publicar para cada grupo

Sus usuarios no son accesibles fuera de la organización a menos que usted lo permita

Utilice páginas internas a las que sólo se pueda acceder dentro de su organización

Decida quién puede publicar un contenido en la Web

Utilice el papel de supervisor para delegar la gestión de contenidos, usuarios y grupos

Trabaje con cuentas de organizaciones amigas para permitir la colaboración de usuarios y compartir contenido
