

## *Workshop n°1 Translation (English – French)*

1- They were working on the top floor of the World Trade Center when the first plane crashed a few floors underneath.

---

2- People were screaming and running after the first attack.

---

3- Some people were jumping out of the windows while others were running for their lives.

---

4- I screamed, ran and evacuated the South Tower as soon as I could.

---

5- While the first tower was collapsing, people were looking flabbergasted and horrified, then they started to run!

---
