What are the categories of twin baby outfits?

Generally, baby clothes fall into three major categories. Newborn infant (6-12 months), baby(6-12 months), toddler(12months and up). There are three or four subcategories in addition to the three primary categories.

During the first year of your kid's life, these subcategories of baby apparel are sized in three-month increments. Baby apparel sizes frequently follow the newborn or infant size, such as 0-3 months, 3-6 months, 6-9 months, 9-12 months, and so on.

Because babies develop so quickly between the baby and infant stages, your baby will most likely outgrow their clothes in the first six months.
